

## Plan a Year's Savings

If you find it hard to save money, perhaps it's because you're following a hit-or-miss plan—or no plan at all.

Decide what you should save in a year's time. Then plan to deposit one fifty-second part of that amount. EACH WEEK, in an interest bearing account at this bank.

It's a fact you'll get better results from this plan than from occasional deposits of larger amounts. You'll not greatly miss the small weekly deposits either.

### SITTLINGTON

We are glad to see Dr. Norman Price out for the State Senate. If Pocahontas County does her duty she will at last have a representative in the State Senate. And we believe the Doctor will get that "Army Set" to his jaw and take care of us. "Politics be Blowed" support him folks.

Ernest Campbell had a narrow escape from injury Tuesday while enroute to Sittlington with the mail. The bridge near Hays Grimes had some boards loose which slipped out under his car letting the rear wheels fall in; if it had been the front wheels the old Henry would have stood on its radiator. Something better be did to this bridge or someone will wreck. Strangers on this road take warning.

Charley Ware sold his Maxwell last Monday and has a Henry. It looks like both a truck and a roadster. Also the last rose of summer, but like all Henrys it's a hauler.

The Grand Street Parade, Dance and Barbecue at Sittlington, the Fourth was a success despite the rain. The noon train was somewhat late and President Harding failed to reach here in time for the Dance but that's all right we didn't miss him much anyway.

Dr. U. H. Hannah was expected down, but said the roads were so bad between Dunmore and Sittlington he had to turn back.

### TOWN COUNCIL

The Town Council held a regular monthly meeting Monday night.

The routine accounts of the town for the month of June were audited. The matter of rearrangement of certain streets and alleys near the bridge and county infirmary was deferred, pending the certain specified improvements, including fill and wall to prevent overflow of the river.

The usual licenses were granted hotel, restaurant, and lunch stands and pool rooms; all subject to the rules and regulations made and provided for the conduct of public places. No definite action was taken by the council in the matter of a change in the water supply. The council is reluctant to submit any proposal to raise money for this purpose until public sentiment is thoroughly in accord as to the obvious thing to do.

S. L. Brown, local weather observer, reports as follows for June: Hottest 82 on the 17th and 30th; coldest 28 degrees on 23rd and 24th; average temperature 63.4 degrees. Rainfall, 4.66 inches; greatest in 24 hours, 1.10 inches on the 1st and 2nd; no snow; rain fell on ten days; clear days 4, partly cloudy 7, 19 cloudy; thunder storms on 12, 19, 20 and 28. The greatest daily range in temperature was 40 degrees, from 28 to 78 on 28th.

T. S. McNeel, manager of the Pocahontas County Home Coming Day, is making up an exhibit of old time things to be shown at the County Fair August 22-24. If you have any thing of the olden time like box hatches, rifle guns, looms, spinning wheels, coverlets, etc., please communicate with Mr. McNeel. A room has been put at his disposal, and it is hoped that a fine exhibit will be made.

### WOMAN FOR CONGRESS

Miss Hattie Stein, of Charleston, is a candidate for the Republican nomination for Congress against the present incumbent, L. S. Echols. The following is received from her campaign headquarters in Charleston:

"Miss Hattie Stein, who signed affidavit of announcement as a candidate to represent the sixth district of Congress expects to win solely on her merits and equipment as a woman and as an American to worthily represent this important district in the Congress of the United States. She hopes her constituents will take her record of achievement with a very limited opportunity as an index of what she may be able to accomplish if the people of the sixth district will vote their confidence to give her this bigger opportunity to work for their best interests—governmentally, politically, industriously, socially. Her candidacy is motivated by a love of service and a normal ambition to have a voice in the constructive legislation of her country. She is a free-lance—has no friends to reward and no enemies to punish—can fight with all the strength of which she is capable for the welfare of her constituency."

"Miss Stein feels that if there are six representatives in Congress that there is certainly a place for one woman. While she will not dodge any issues that concern either men or women—biologically and temperamentally is equipped to focus on legislation that concerns women and children—physical and mental education, child labor, and equal work for men and women."

"Miss Stein is rooting for the service man—soldier, sailor and marine. She is not only for the bonus bill but for the liberal interpretation of every case of compensation. If there is any doubt, let the boy who fought for us have the benefit rather than the U. S. Treasury."

"Miss Stein wants her district to have good roads not only as a matter of civic pride and utilitarian advantage but good roads mean better attendance at school and at church."

"This woman candidate also thinks about a man's questions. For example—the office of sheriff should be divided into two offices. A man may be a good police officer and a poor fiscal agent or vice versa. The taxpayers have a right to have the money paid as taxes expended judiciously."

"Miss Stein believes that a representative should be most vitally interested in the most vital problem in his or her district, and it is unanswerable that labor is the most important question in this district. Labor from all angles and in every phase. Unemployment is the most human factor in the field of economics. If the breadwinner is out of work the whole family suffers."

"A reason why the voters of Pocahontas County should vote for the nomination of E. N. Moore, of Dunmore, for our representative:

During the last session of the Legislature, there was a bill introduced to change amount each county should receive for road from the \$50,000,000 bond issue from the mileage basis to that of a valuation basis. On the mileage basis, Pocahontas County receives the second largest share, as we have the second road mileage in the state. This will give to us about \$400,000 from the first \$15,000,000, or about \$1,450,000 from the \$50,000,000 bond issue. Had the law been changed as they wanted it, our county would have received only about fifteen cents on the dollar, or about \$60,000 on the first \$15,000,000 or about \$250,000 of the \$50,000,000 which would hardly make a start on our mileage. This bill was fought by our legislator, Mr. E. N. Moore, of Dunmore, and through him and other counties of the state the proportion in regard to the mileage of Class A roads, and not allowing a few counties rich in oil, gas and coal and a few cities in these counties to receive nearly all of the bond issue to improve all of their roads, while the others stayed in the mud. In the coming session of our legislature this same bill will be re-introduced and it will take a hard fight to keep the law as it is. We have in E. N. Moore a man in whom we can place our confidence and know how he will work and fight to keep the law as it is, and who will always look after the interests of Pocahontas county. If there ever was a time when we needed a good man it is now. In E. N. Moore we have such a man."

### Voters of Cass.

The sale of the Pocahontas County lands of the John T. McGraw estate last Thursday resulted in the following: The 1007 acres at Williams River to Capt. M. G. Sperry, of Clarksburg, 69 acres, Greenbrier Hill, to Mr. Rider, Mt. Grove; 73 acres, Laden Bottom, Withrow, McClinton; 146 acres Marlin Mountain to W. A. Eskridge, The Stamping Creek tract to P. A. Marshall. No bid was received for mineral rights under 8000 acres at Denmar. Lot at Durbin to Miss Emma Burner.

Mrs. Wilbur Sharp and son Robert returned Tuesday from a visit to her old home in Eastern Virginia.
